

## SMART Grids A Technology for Society

By Suryansh Pant

GRIN Verlag GmbH. Paperback. Condition: New. 16 pages. Dimensions: 10.0in. x 7.0in. x 0.0in. Scientific Essay from the year 2014 in the subject Technology, grade: 1. 33, Jacobs University Bremen gGmbH, course: USC: Society and Technology, language: English, abstract: The following paper presents the Smart-Grid VDAR technology presented at CeBIT, Hannover. The idea and structure of the technology is subsequently introduced followed by a social analysis of the technology. Some of the relevant groups identified were: consumers, producers, environmentalists and the government. High installation costs and health concerns were addressed as the main problems concerned with the use of technology. Finally, the aim of European Union to adopt a smart grid within the next decade is highlighted which is an indication of an overall positive outlook towards the technology. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
