THE HERMETIC MUSEUM OF THE ALCHEMIST VOL 3 (PAPERBACK)

Createspace, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. OUR Magistry consists of three parts: the first deals with the essential and substantial composition of our Stone; the second describes their manner of combination; the third the mode of chemical procedure. Our substances are red ore, or matured Sulphur, and water, undigested Mercury, or white ore. To these a vessel is added, a furnace, and a triple fire. In discussing their manner of combination, we have to consider their weight and the regimen. The weight is twofold, and so is the regimen: between them they produce the following processes- Calcination, Dissolution, Separation, Conjunction, Putrefaction, Distillation, Coagulation, Sublimation, Fixation, and Exaltation. The first two produce the black, viscous powder, by means of the unnatural fire, a temperate, incomburent, and altering ignition. There is then a further change into a mineral water. The three operations Which follow are the result of the first and third fires, namely, natural and contra-natural, and circulate the substance, until the gross is separated from the subtle, and the whole is evenly tempered, the separated elements being then recombined, impregnated, and putrefied.
