SIMULATION OF MANUFACTURING SEQUENCES OF FUNCTIONALLY GRADED STRUCTURES

Kassel University Press Feb 2017, 2017. Taschenbuch. Condition: Neu. Neuware - The current paper establishes an axisymmetric model for an inductive heating process. Therein, the fully coupled MAXWELL equations, assuming a temperature dependent permeability, are combined with the non-linear heat conduction equation to yield a monolithic solution strategy. The latter is based on a consistent linearization together with a higher order finite element discretization using GALERKIN'S method in space. For the temporal discretization, the generalized Newmark- methods, higher order RUNGE-KUTTA...

Reviews

The ebook is great and fantastic. Indeed, it really is perform, still an interesting and amazing literature. I realized this publication from my i and dad encouraged this pdf to find out.

-- **Zelda Green**

Definitely among the best ebook We have actually study. it was writtern really flawlessly and valuable. Your way of life period is going to be enhance as soon as you complete looking over this pdf.
