NONLINEAR DIFFERENTIAL EQUATIONS OF CHEMICALLY REACTING SYSTEMS

Book Condition: New. Publisher/Verlag: Springer, Berlin | In recent years considerable interest has developed in the mathematical analysis of chemically reacting systems both in the absence and in the presence of diffusion. Earlier work has been limited to simple problems amenable to closed form solutions, but now the computer permits the numerical solution of complex systems of nonlinear differential equations. The numerical approach provides quantitative information, but for practical reasons it must be limited to a rather...
