FBC LTD, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Fire Management Plan: Sequoia and Kings Canyon National Parks Management fires, including both fires of natural origin and prescribed burns, are those fires which contribute to the attainment of the management objectives of a park through execution of predetermined prescriptions defined in detail in a portion of the approved Resources Management Plan. Natural fire is the preferred means to achieve the prescriptions in natural zones. This use of natural ignition may be adopted when analysis of historic fire occurrence, control, and influence indicates that natural fuel loading has not been significantly altered by past management of fire control. It may also be used where the prescription provides for a transition from an altered state back to historic fuel loading.
