Shroff Publishers/Murachs, 2009. Softcover. Book Condition: New. 18 x 24 cm. Want to create websites that deliver the fast response times, dynamic user interfaces, and special effects that today`s users expect? Then this is the book for you! Whether you`re just starting out in JavaScript or whether you`re ready to move into DOM scripting, it gives you the skills you need. Here`s how: 1: It`s 2 books in 1: A JavaScript book and a DOM scripting book Most books cover JavaScript or DOM scripting. But to create user-responsive sites, you need to know both. So the first half of this book is a course in JavaScript essentials. Then, the second half is a course in DOM scripting that gives you a clear understanding of how DOM scripting works, how JavaScript underlies it, and how to use it to build applications that run slide shows, use drop-down menus, rotate headlines, sort tables, provide animation, and more! That means you can gain basic to expert skills in a single book. 2: It provides a fast start Section 1 is a crash course in JavaScript. In fact, by the end of chapter 3, you`ll know how to code, test, and debug applications that include elementary DOM scripting. Then, the rest of the book builds on those skills to cover all the JavaScript and DOM scripting essentials. 3: It shows you how to create and use event-handling libraries for browser compatibility One of the headaches of web programming is ensuring that the code will work with all the popular browsers. So this book shows you how to create your own event-handling libraries of browser-compatible code, so you can draw on it as needed. It shows you how to take advantage of free, third-party libraries like jQuery and Dojo. And it helps you to appreciate,...
